Georgia graduation requirements

Graduation Requirements for Students Enrolling in the 9th grade in 2008-2009

The chart below represents the graduation requirements for 9th graders enrolling at the high school in 2008-2009. ALL students will be required to complete the requirements listed above. Your selection of courses will be extremely important.

In addition, guidance from adults (parents, counselor, advisor, instructors) can assist you in making these very important decisions. Remember you should have done some investigation about career possibilities prior to selecting your classes at the high school. High school will begin to prepare you for the next step you take and that will depend on the answer to the question, "Where Am I Going?"

Gathering information and keeping that information in an organized, systematic format will help you and your parents/guardian make more informed decisions about your future. Selecting high school courses is one of the most important things you will do because your future depends on it. Good Luck!!!

Remember there are other requirements for graduation such as passing the [Georgia High School Graduation Test](#) or your local system may require additional units/credits for graduation.
